

YOUR SECURITY PARTNER

Mechanical Lock

Version 2

Introduction

ASSA ABLOY, the global leader in door opening solutions, is dedicated to satisfying end-user needs for security, safety and convenience. Since its formation in 1994, ASSA ABLOY has grown from a regional company to an international group with 47,000 employees, and operations in over 70 countries. ASSA ABLOY offers the most complete range of door opening solutions globally. ASSA ABLOY prides itself on innovation and has been recognised on no less than four occasions as one of the top 100 most innovative companies globally.

ASSA ABLOY Opening Solutions Malaysia Sdn Bhd was formed in 2019 after successfully combining the established and renowned Teamware hardware services business (Established 1996 and Acquired by ASSA ABLOY in 2015) and ASSA ABLOY Malaysia. This newly formed entity brings to the market a dynamic blend of locally relevant and established market brands like Yale, St Guchi and ASSA ABLOY; with the global reputation and financial backing of a large listed European shareholding.

ASSA ABLOY Opening Solutions Malaysia offers a Turnkey door opening solution from concept through design and delivery; for architects, interior designers, facade consultants, quantity surveyors and developers. Our cloud based BIM software integration delivers industry-leading architectural process control and visualization of door scheduling and openings, while streamlining information exchange and design. This coupled with dedicated specification, projects, ironmongery, Aluminum and Glass divisions and backed by an established and reputable network of approved distributors and dealers; ensures complete comfort, integrity and security from design to development and installation.

Our comprehensive range of offerings include Smart Digital Door locks, Mechanical locks, Aluminum and glass fittings, door and architectural hardware, Smart Safe Box, Padlocks, Door Knobs, DOOR CLOSER and fire rated doors. Our Locksets can modify to one key system, key alike system, master key system, grand master key system and construction key system. All of our offerings are backed by the ASSA ABLOY quality assurance warranty, 24 hour customer service and certified to global and local certifications standards like BS EN or ANSI with local accreditation by SIRIM, Intertek and TUV.

Brand Description

Established in 1996, St Guchi is one of the leading brands in providing single source solution for doors & windows hardware in Malaysia. Since its inception, through innovation and continuous improvement in product development, St Guchi has expanded its product offerings from the humble mechanical locks, aluminium & glass accessories, door & architectural hardware, sliding & folding doors systems to include fire rated doors and digital door locks. By 2015, it has become the leading brand for lock set and hardware in Malaysia.

St Guchi is now part of Yale, the residential consumer master brand under ASSA ABLOY Group after it was acquired by the group in 2015.

The ASSA ABLOY Group was formed in 1994 through the merger of ASSA in Sweden and Abloy in Finland.

Since then it has grown from a regional company into an international group with around 46,000 employees and annual sales close to EUR 7.3 billion.

Brand Essence and Values

Our vision is to be the global leader in providing innovative access solutions that help people feel safe and secure so that they can experience a more open world.

We talk about how we help billions of people feel safe, secure and experience a more open world every day. We convey that ASSA ABLOY Group is the global leader in access solutions. And we talk about how innovation has defined us from the very beginning.

Our brand values stand at the very core of your brand. They are the center from which everything radiates—including our look (design), message (voice), and relationships (customer interactions).

Safe

We help people feel safe by focusing on avoiding unintended incidents, such as accidents. Our products and we operate with people's safety in mind.

Secure

We care about the protection of individuals, organizations and assets. People should experience freedom from worries, safe in the knowledge that certain safeguards are in place. People rely on us to protect them, their loved ones and their belongings.

Convenient

Our convenient access solutions help people feel safe and secure in a convenient way.

Innovative

We lead in innovation; our vision is to be the global leader in providing innovative access solutions that help people feel safe and secure so they can experience a more open world.

Sustainable

We are committed to providing products and services that are environmentally sound, as sustainability is a central part of our business philosophy and culture.

Your Single Source Solution for Doors & Windows Hardware

Types of Cylinders Key

Key Alike System

KA

All the cylinders have the same differ and be opened only by one key.

Master Key System

MK

Every cylinder can be opened by its own key which cannot open any other cylinder of the system. All the cylinders can be opened by the MK management key.

Grand Master Key System

GMK

Same as the management key system but in two or more groups. Every group of cylinders can be opened by its own service key. All the cylinders of the system can be opened by the GMK grand management key.

Central Cylinder System

CC

Every cylinder has its own key which cannot open any other cylinder of the system. All the keys of the system can open the cylinder of the central lock.

Central Cylinder System and Master Key

Every cylinder has its own key which cannot open any other cylinder of the system, except the central system. All the cylinders of the system can be open by the MK management key.

Construction Keyed System

CMK

A system where it is necessary for contractors to gain entry to a building during construction but to prevent entry by the same contractors after the building has been occupied or handed over. The system makes it possible to change from construction keying to normal keying.

LUGGAGE LOCK

TRAVELSENTRY
lock. protect. relax.

INTRODUCING TRAVEL SENTRY

Travel Sentry is the new travel industry baggage lock standard developed to enable passengers to once again lock their checked baggage. Travel Sentry allows travellers the freedom to protect their belongings while not interfering with the need for airport security screeners to open bags for inspection.

The development and implementation of Travel Sentry was made possible through unprecedented cooperation between luggage, lock and travel accessory manufacturers and the U.S. Government's Transportation Security Administration (TSA).

The image displays two different models of door closers against a dark, reflective background. The top model is a top-hung door closer, featuring a long, rectangular body with a mounting bracket at one end and a pin at the other. The bottom model is a bottom-hung door closer, which has a similar rectangular body but includes a long, articulated arm with a pin at the end. Both units are made of polished metal.

DOOR CLOSER

DOOR CLOSER

SPECIFICATIONS

- Opening and closing cycle controlled hydraulically
- Hydraulic fluid viscosity range of 0 - 100 degrees
- Full rack-and-pinion operation
- Covers: High impact, self-extinguishing
- Closer Body: R14 cast silicon Aluminum

SGSF-SGW75 Folding Door System

Features

- Door weights up to 75kg
- Wooden door leaves
- 2-to-8-leaves folding doors
- Floating suites possible
- Full corrosion resistance construction
- 304 marine grade cast stainless steel parts for improved strength and maximum corrosion resistance
- Concealed guide channel to enhance appearance
- Mortise or non-mortise hinge and hangers
- Precision bearings top and bottom to reduce rolling resistance
- Durable polypropylene channel provides quiet operation
- Ideal for coastal application

Technical Data

- Max Door Height 3300mm
- Max Load Capacity 75kg
- Max Door Width 900mm
- Max Door Leaves 8
- Door Thickness 35 - 50mm
- Min Track Radius 5000mm

Material and Finishes

- Running track Aluminum
- Upper hanging Nylon Roller and SUS304 Suspend Profile
- Hinge SUS304
- Hanger bodies SUS304
- Bottom guides High Precision Bearings and SUS304 Suspend Fitting
- Bottom track Aluminum
- Lined bottom track Invisible PVC
